London, SE1

I am a recent Computer Science graduate who's a problem solver by nature. I'm looking for a role that challenges my technical abilities and helps me grow as both a person and as a professional. My greatest passion is to find solutions to life's daily problems.

From my previous work experience, I have been responsible for communicating directly with clients whilst learning how to work as a part of a wider team. If you'd like to see some of my past technical work, you can have a look at my website here.

Experience

Senior SEO Executive, PHD Media London (Apr 2023 - Present)
- Further developing my account management skills since taking charge of my own account.
- I have become one of the primary team contacts for technical help, and I am frequently relied upon to implement API calls in team projects.
- I personally designed and implemented the team's current Looker Studio dashboard template which has had positive feedback from all of our clients.

SEO Executive, PHD Media London (Sep 2022 - Apr 2023)
- Refined and automated client reporting process; programmed an automated VBA task tracker for internal use.
- Applied learnt technical knowledge to set up and manage a number of different interactive Google Looker Studio dashboards for different clients to use.
- Further developed analytical skills when processing and presenting large amounts of data.

SEO Assistant, PHD Media London (Aug 2021 - Sep 2022)
- Developed organisational and planning skills while serving as a primary contact with clients.
- Presented data on a regular basis to big-name clients such as VW Group and Warner Bros.

Education

BSc Hons Computer Science (2:1), Lancaster University (Oct 2017 - Jun 2020)
- My course cast a wide net over the topics of Computer Science
- Primary coding skills learnt: Java, Python, Flask, C, SQL, HTML5, CSS, and JavaScript

IB Diploma (34 Points), British International School of Jeddah (Sep 2015 - Jul 2017)
